- UI design principles

### EXPERIENCE

#### Front End Developer

- Developed responsive web applications using HTML, CSS, and JavaScript frameworks.
- Collaborated with UX/UI designers to enhance user experience and interface design.
- Implemented version control practices using Git for code management and collaboration.
- Optimized website performance and loading speed through efficient coding techniques.
- Conducted cross-browser testing to ensure compatibility across various platforms and devices.
- Assisted in troubleshooting and debugging issues within existing web applications.
- Participated in agile development processes, contributing to sprint planning and reviews.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
- Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Optimized site content for mobile devices using responsive design techniques.
- Contributed to projects within Scrum project management environments.
- Maintained website performance by conducting regular updates and addressing compatibility issues across various platforms.
- Improved website accessibility by implementing best practices for ADA compliance.
- Researched emerging web technologies and trends for possible incorporation into sites.
- Led front-end development of major e-commerce platform, facilitating smoother checkout process and boosting sales.
- Resolved cross-browser compatibility issues, ensuring consistent website presentation across Chrome, Firefox, Safari, and Internet Explorer.
- Pioneered adoption of CSS preprocessor, simplifying stylesheet management and accelerating style changes implementation.
- Conducted thorough testing and debugging of web applications, guaranteeing high-quality releases and minimizing user-reported issues.
- Optimized existing website code, leading to significant improvements in performance metrics and search engine rankings.
- Collaborated with UX/UI designers to translate visual concepts into functional and dynamic web pages, ensuring alignment with brand standards and user expectations.
- Facilitated faster decision-making by creating interactive prototypes for stakeholder review, leading to more efficient project advancement.
